

# Fine Motor Skills with Stickers!

## What you need:

- Floor or other hard surface (we used a white board)
- Paper (we used butcher paper)
- Painters tape
- Stickers
- Crayons (Optional)

## How to set up:

- Tape a big piece of paper to your floor (we covered a white board and taped the paper to the back)
- Give your child some stickers and let them go!
- Have crayons available so they can color too

As always, don't leave you're child unsupervised in case they decide to eat the stickers.
